

Unit Ferrule (1)

New Generation of jointing system in tent pole

- NO impact to fix ferrule into tube
- NO more crack by dimple or press-fit
- Stable pole structure

* New Technology

- Shock-cord - High tension and 2.5x pull length
- Double injection molding process

Unit Ferrule (2)

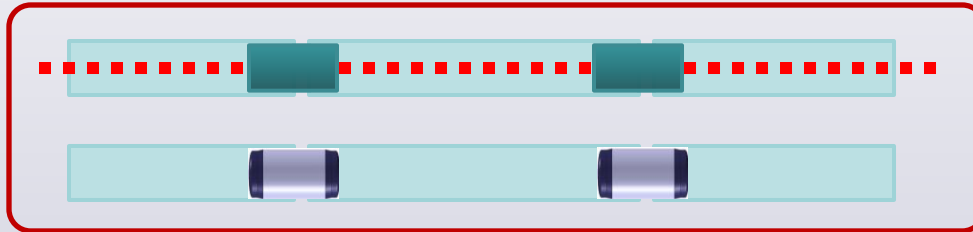

1. Independent insert system

- EASY assembling
- EASY replacement

2. Minimum cord length

- light weight (only 15% cord length in whole line)
- Minimum gap between sections in cord pulled
- decrease dents & accidents

3. Always fixed tension in folding pole
